

Process Owner: IT Operations	FORM	F-CMG-3.1
	<i>Decommissioning of old samba server JKA-VLIN-FNP01</i>	

Request Information				
Requestor	Alvinn P. Medrano			
Implementing Team	Server and Systems Operation			
Ticket Number/s	#201917115			
Change Classification	X	Major		Minor
After the fact		Yes		No
Emergency		Yes		No
Proposed Change Date	July 13, 2019			
Proposed Change Start/End Time	5:00 PM			
Proposed Change Verification Time	5:00 PM			

Objective of the change
To decommission old samba server to utilize the space for new virtual machines.

Technical/Operational Impact of the change		
Negative: File that is not goes with the backup will be deleted permanently.	Beneficial: Freeing space on the host memory	Neutral: N/A

Affected IT Infrastructure components			
Site	Hostname	IP Address	Function
JKA	JKA-PESX-HV01	172.17.1.11	VMware ESXi

Affected Departments and corresponding contact persons		
Department	Contact Name	Contact Info
Server Operations	Rovie Salvatierra	0917-627-4325

Test Environment implementation and Verification Summary
<ul style="list-style-type: none"> No Test implementation Verification required.

Test Environment Results Summary
<ul style="list-style-type: none"> No Test Environment Result Summary required.
